Barefoot resources

<https://www.barefootcomputing.org/>

The image shows the Barefoot logo in the top left corner, which includes the text "Barefoot" and "from" followed by a small star icon and the letters "BT". Below the logo is an illustration of a teacher and two children sitting at a table in a kitchen-like setting. The teacher, a woman with dark hair wearing a pink top, is looking at a yellow book held by one of the children. The other child, a girl with brown hair wearing a yellow top, is writing on a piece of paper. There are two cups on the table, one pink and one blue. The background shows kitchen cabinets and a window.

Enjoyable activities, designed by teaching professionals for families to do at home with their children.
